

## Who Are We?

The Million Member Assembly (MMA) is the union of over 1200 not for profit groups, churches artists, artisans, gospel groups, and religious organizations united with the solely objectives of promoting changes for Haitians both in the Diaspora and Haiti. The goal of the Million Member Assembly is to re-establish the social fabric of communities and human care for Haitian women, adolescent, senior citizen, and children.

Over the past fourteen years, MMA has been collected data on community health needs and has established temporary health care camps in Jacmel, Cap-Haitien, Lagonave, Jeremie and the Central department of Haiti. The quality of care provided at these sites was inadequate to meet the needs and the frequent urgency of the local population. Most of these communities have the urgent needs of basic first AID / primary care and intermediate health care assistance. They are in great needs of innovative and permanent health care programs caring for their diverse and immediate relief.

### What Do You Need From Me For The "Green Points' Clinic"?

We need you to help us build standard health care facilities for more than 30 rural communities in Haiti!

With your help, the Million Member Assembly (MMA) will lay the foundation for standard health care assistance and permanent support system in Jacmel, Port-de-Paix, Pion, Derac, Cap-Haitien, Jeremie, Petit Goave, Hinche, Fort Liberte, Gonaives, Carefour, St. Marc, and Miragoane. Each clinic will serve a minimum of 3000 families quarterly.

# GREEN POINTS

CLINIC  
CENTERS

COMMUNITY  
HEALTH  
IN HAITI

## Why “The Green Points Clinics” in Haiti?

The “Green Points” is the creation of a series of small and accessible community clinic targeting quick health care access for the underprivileged throughout the rural and poor slum in the urban areas of Haiti. The Green Points is the emergence of a new type of health care program to benefit over 10,000 people on a quarterly basis.

## Who Are Behind The “Green Points’ Clinic”?

The Green Points Project is a leadership vision of the Million Member Assembly articulated by a group of religious leaders, rural organizations, philanthropists, clergy, deacons, deaconesses, lay persons, health care specialists, radio personalities, actors, actresses, celebrities, civic leaders and Haitian elected officials throughout the Diaspora and Haiti.

## Where Will The “Green Points’ Clinic Located?

The first wave of clinics will be opened sequentially in Verrettes, Jacmel, Les Cayes, Fond des Negres, Miragoane, Port de Paix, Hinche, St. Marc, Trou du Nord , Derac and Oanaminthe.

## Who Will Run The “Green Points’ Clinic”?

Each community clinic will house a Medical Doctor, 2 practical nurses and 6 interns. Each Green Points’ Clinic will become a window of opportunity for Haitian health care specialist with respect to career orientation, and ongoing medical training. The Green Points’ Clinic will guarantee access to quality care for traditionally underserved people in the urban populations and rural areas of Haiti.

## What Is Unique About The Green Points’ Clinic?

Each clinic will take a population-based approach, and its job would be to keep its community healthy. Each clinic will provide a true medical home for its patients. Each clinic will be linked to a variety of local partner organizations both “traditional” (e.g. specialty care, hospitals, mental health) and “nontraditional” (e.g. local markets, food program, advocacy organizations). The mission of the clinic is to introduce a new model of high quality care in Haiti, to lift up the collective voice of its constituents and build local health care technician.

## What Is The Cost Per Visit at The “Green Points’ Clinic”?

Visitation cost per client is based on a new initiative movement introduced by the Million Member Assembly and its partners called “people support people for community progress”. To maintain people dignity, each participant will become a member for only 5gds. (equivalent of US \$.25¢). The membership will give them free access to basic services. If additional or advanced medical needs are required, members can also pay their visits with **live stock and farming produce** (e.g. chicken, goat, milk, rabbit, candy yam, plantain, rice and peas), or member without resources can serve as volunteer to pay for services received at the clinic.

## What Is The Vision of The “Green Points’ Clinic”?

The vision of the Green Points’ Clinic is to bring change within the Haitian health care system. Imagine the following scenarios: **1.** Many pregnant women lost their babies due to inadequate health care. **2.** Children are exposed to many epidemics due to lack of vaccination. **3.** Our mothers, fathers, sisters, cousins, and grand parents who have devoted their time to our education and up bringing have no recourse to basic health in Haiti because they cannot afford it. **4.** The average walking distance to a hospital is 2 days. **5.** There is one dentist per 6000 people Haiti. **6.** Basic health care assistance for women and children in the rural areas are non existent. With your support, the “Green Points’ Clinic” will change that.

## Are Haitian Born Elected Official Abroad Supporting The “Green Points’ Clinic”?

The Green Points’ Clinic is a window of opportunity for Haitian elected officials in the Diaspora. This new Community Clinic Initiative has been supported by many of them. They have used their contact for in-kind assistance. Many health care specialists have been encouraged by Haitian-American elected officials to provide pro-bono assistance and visit the clinics periodically.

## Are People in Haiti Supporting The “Green Points’ Clinic”?

Women groups, civic leaders and grassroots organizations in Haiti have embraced the program and are motivating their constituents to assist the “**Green Points’ Clinic**” with logistic support, and housing accommodation. They are currently working with our site managers for key locations and donate free land for the construction of clinics, storage rooms, and dormitory for doctors, nurses, volunteers and visiting specialists.

## Are Community Groups in the Diaspora Supporting the “Green Points’ Clinic”?

The Green Points’ Clinic is also a window of opportunity for Community groups in the Diaspora. Over 700 powerful community associations have joined hands with the program. The “Green Points’ Clinic” is the first initiative that offers new opportunity for mutual collaboration among Haitians groupings and community based programs. Each group is encouraged to oversee the ongoing function of any clinic of its choice and support it as it sees fit.
